PROJECTS

Financely - A Personal finance tracker [↗](#) | REACT, Firebase, JavaScript

FINANCELY, a personal finance tracker built with **React.js** and **Firebase**, utilizing JavaScript for seamless functionality. Key features include:

1. Income and Expense Tracking: Easily track and manage your income and expenses, ensuring you stay on top of your finances.
2. Graphical Representation: Visualize your financial data with dynamic and insightful graphs, making it easier to understand your spending habits.
3. User-Friendly Interface: Experience an intuitive and responsive design that simplifies personal finance management.

WhiteBoard [↗](#) | HTML, CSS, JavaScript

A **Whiteboard** that mimics the functionality of Excalidraw, empowering users to unleash their creativity on a digital canvas with key feature:

1. Drawing Tools: Access freehand drawing and shape creation functionalities.
2. Customization: Adjust pencil stroke sizes for precision and choose from multiple background options.
3. Save Feature: Save your creations for future reference and inspiration.

Image Bazaar [↗](#) | React, JavaScript, Sass

Developed an **Image Bazaar** web application leveraging API integration to dynamically fetch and display images from a remote server with key feature:

1. Implemented key feature of infinite scroll for seamless exploration of extensive image collections.
2. Incorporated intuitive search functionality allowing users to easily discover desired images.
3. Enabled direct downloading of images to local devices for enhanced user convenience and accessibility.

Tools / Platforms

Developer Tools: VS Code, IntelliJ IDEA, Figma

Hosting Platforms: GitHub, Vercel, Netlify
